

LEARNING & DEVELOPMENT SOLUTIONS

Developing critical skills for a future-fit workforce

Put your **employees' career development** into action with custom created learning journeys. We help you **develop and deploy affordable, blended, gamified learning journeys** that your employees will love.

We bring **modern learning methods and emerging technologies** together with unbridled creativity. Our team of **L&D consultants, animators, graphic designers, instructional designers, videographers, voice artists, audio engineers and information architects** bring it all together for you to create and deploy learning experiences that stick.

WHAT MAKES US DIFFERENT?

- **Navigating the world of learning and development can be very confusing and costly.** We help you develop blended, micro-learning strategies and journey's that inspire both your people.
- **Don't know how to deliver your training content to your teams?** No problem! We have a host of affordable LMS systems available to engage your teams where ever they are.
- **We offer a full suite of services to bring your learning material to life.** Our team of animators, graphic designers, voice artists, instructional designers, motion graphic artists, app developers and videographers help bring interactive, neuroscience-based learning into your organisation.
- **Our team of psychologists and instructional designers** help you understand how to leverage technology to solve your people and business problems. From on-boarding, to sales training. Soft skills and hard skills. We help you automate your training efforts and save time and money.

PROGRESSIVE PRODUCTS

At Yellow Seed we source the best products that the modern world of learning & development has to offer.

TALENT LMS

A super-easy, affordable and flexible cloud based LMS to train your employees, partners and customers. Fully mobile compatible training deployment solution that is trusted by 60000+ organizations!

aNEWSPRING

One of the most technologically advanced Adaptive learning platforms, and endorsed by the Bill & Melinda Gates Foundation. It combines an on-line author environment, LMS, LCMS, a learning community and web-shop functionality.

THE **GAME** AGENCY

THE GAME AGENCY

Engaging training games that improve comprehension, engagement and changes behavior. Each game is designed to marry smart instructional design and polished game play. Our games are used for new-employee on-boarding, sales and product training, leadership development, safety, security, compliance, systems & processes, customer service, and many other training topics.
